

SOUTHWIRE ANNOUNCED AS KEY SUPPLIER OF FIRST COMMERCIAL-SCALE OFFSHORE WIND PROJECT

ABOUT

CUSTOMER

Avangrid Renewables & Copenhagen Infrastructure Partners: A Joint Venture

PROJECT

Vineyard Wind 1

LOCATION

New Bedford, MA

Southwire will lead the design, manufacturing, and installation of the high voltage onshore cables for the Vineyard Wind 1 Project.

Southwire's Huntersville facility will manufacture the high voltage cable and the high-skilled, factory certified High Voltage Installation Team will be working with local laborers to install the cable.
